“ Andre and I serves together on USS Simpson in the engine room for only a couple of years. It seemed like a lifetime because of how personal he was. We had a blast listening to Bobby Brown, Barry White and James Brown. It was a learning curve for me but he definately closed the racial gap.

Though I have several memories of Andre during our time abroad, one will always stay with me... we were transiting the Straits of Hormuz and were required to stay in the engineering spaces due to possible attack. I was his watch relief for the engine room. Imagine my surprise oopening the engine room door and seeing Andre in his bikini underwear and work boots only! “Damn, Smitty” he said, “its so hot in here”. Til this day I still get a chuckle of my shipmate and friend dealin with the struggles of watchstanding. Ive looked for Andre in the past couple years as well. I have a few pics of us in storage I’ll share once I settle in somewhere. I am deeply sorry for the Outlaw family. Please know he had a huge impact on my life. Friend of Andre... “ I am heart broken and speechless right now upon learning of my friends passing. I first met Andre on board the USS Simpson FFG-56 while docked in Haifa Israel back in 1992. Andre took me under his wing and showed me around the ship and helped me navigate my way around. I was amazed at how smart and knowledgeable he was. He became a big brother to me as well close friends. Thru the years, I've always searched for Andre on different social media platforms but never had any luck. Today I was thinking about Andre and came across his obituary and my heart sank. I have nothing but fond memories of the time we shared in Newport Rhode island and all the laughs we shared. May you rest in peace my brother! I will never forget you. God Bless his family.
