“ I know this is four years too late. But I was thinking of Carol this evening because I was thinking of planting a Clematis. I had the absolute privilege of working with her at WPIC. She was more than a colleague. She was a friend and a very lovely person. I remember our outings to Phipps Flower sale on mother's day weekend. She was great with people as well as flowers. Deepest sympathy to her sons and family. She is missed.

“ *Carol was a truly lovely woman who immensely helped me at a bad time in my life. I am sure that she meant a lot to everyone who had the pleasure of meeting her. My deepest heartfelt sympathy for her family and loved ones. It is almost a month after her passing that I just found out as I do not live in the area any longer. It is a sad day for me.*

“ Had the pleasure of knowing Carol the last ten or so years of my life . Always treated me like one of her own. She was the best mother to my best friend. Truly one of the kindest people with the best sense of humor I've ever met.

“ While I never had the pleasure of meeting Carol, I work with many people who tell me how much she helped them live their lives better and more fully. She is remembered by them as someone who listened closely and cared deeply for their emotional health and well being. She will be missed.
